Design your AI Context Layer

OWNED OUTCOME	We take ownership in designing context graphs of disconnected enterprise data, knowledge, and IT systems so AI agents operate reliably and affordably. What you can expect: Improve agent reasoning; reduce token consumption; connect fragmented operational knowledge; enable reusable context across AI use cases.
CAPABILITY	Context architecture · Context graphs · Neo4j · Graph design · Zero-copy / federated context · MCP connectors · Semantic modelling · Enterprise data integration
DEPLOYMENT TEAM	Lead AI Advisor · Context Layer Architect · Context Layer Engineer

We scope every engagement to your team's current maturity, priorities and existing tools.
